Jessica Gonzalez | Multidisciplinary designer with focus in UX/UI Design

Work Experience

Jan 2020 - Present

Senior UX/UI Designer, Edenspiekermann

Collaborated with multiple stakeholders, engineers, designers and project managers to create multi-platform projects including:

- Interactive Infographics
- Websites and Apps (UX/UI Design)
- Automotive Infotainment Systems
- Internal Dashboards and Tools
- Branding, Social and Marketing Systems
- QA and Accessibility Assurance

Sept 2019 - Oct 2019

Freelance Designer, Fab Fit Fun

Contracted as a freelance designer to help promote their latest Chic & Tonic Brand. Projects included:

- Short Animated Videos & GIFS
- Photo Editing
- UX Research

Oct 2018 - Dec 2019

Multidisciplinary Designer, Lettuce Grow

Worked alongside the marketing, technology, and the design teams to determine the best way to shift from B2B to B2C. Projects included:

- ALiOS App
- Website UX/UI Design
- Custom Illustrations for User Manuel
- Packaging Design

Jan 2018 - Sept 2018

Intern & Jr. Designer, Edenspiekermann

Start as an intern while in college and got promoted to full time within a few months. Worked in collaboration with various designers, engineers, and stakeholders through multiple different projects.

Additional Activities

Inner-City Arts: Regularly participate in Shadow Days where high school students shadowed me for a day to get real life experience within a design office.

Out in Tech: I have been part of the Out in Tech community for several years and have volunteered to design websites that aid LGBTQIA+ communities around the world.
